

KAVYASRI KALLAGUNTA

Mulaguntpadu Singarayakonda, Prakasam (D), Andhrapradesh

OBJECTIVE

Aspiring ECE professional looking for an opportunity to learn, grow, and apply technical knowledge in electronics and communication through internships and industry-oriented projects

EDUCATION

Shri Vishnu Engineering College For Women	Expected 2028
B.Tech Electronics and Communication Engineering	CGPA 9.12
Krishna Chaitanya Junior College, Nellore	2022 - 2024
Intermediate	Percentage 97.9
Sri Vivekananda High School, Skonda	2022
SSC	Percentage 92.5

SKILLS

Technical Skills	: C Programming, Python(Basic)
Core Concepts	: Digital Electronics, Verilog HDL(Basic), IOT cocepts
Soft Skills	: Communication skills, Time Management, Quick learner, Problem Solving
Tools	: MATLAB, Xilinx Vivado(Basic)

PROJECTS

Sever Drain Sheid for Smart Cities Developed a smart sewer monitoring system to detect drain blockages and prevent overflow using sensors. The system helps improve urban sanitation and supports smart city infrastructure and technologies are used by IoT, Sensors, Arduino/Embedded Systems

Smart Health Emergency Alert Systems Designed a health monitoring and emergency alert system that tracks vital parameters and automatically sends alerts to caregivers or emergency contacts during critical situations and technologies are used by IoT, Sensors, GSM/Wi-Fi, Embedded Systems

4-Bit ALU design Using Verilog HdL Designed and simulated a 4-bit Arithmetic Logic Unit (ALU) using Verilog HDL to perform arithmetic and logical operations such as addition, subtraction, AND, OR, and XOR. Technologies are used by Verilog HDL, Xilinx Vivado/ModelSim

AREAS OF INTEREST

- VLSI Design
- Embedded Systems and IOT

CERTIFICATIONS

- NPTEL (System design through verilog)
- Infosys Springboard

ACHIEVEMENTS

- Participated in technical workshops and seminars
- Participated in Club events
